English Skills is a highly individualized English course working to improve each student's skills and confidence in the basic areas of English: reading, writing, speaking, and listening. Course materials and methods will be formulated for each student, based on assessment of student needs and abilities. The course is recommended for students who would like to enrich their abilities in regard to a specific skill set or on the total range of English skills.
The course is also recommended for students who wish to improve their reading and writing skills across the curriculum and to prepare for a rigorous course, such as Advanced Placement or SAT/ACT prep.

ATTENDANCE POLICY: Due to the demanding requirements and concentrated study effort of summer school courses, it is imperative that all students be present each day for the entire class. One absence is the maximum allowed to earn credit. Because we must contract teachers based on enrollment, there are no refunds. For documented health reasons we will credit tuition less $100 processing fee.
