

TRANSPORTATION LIABILITY FORM

It is the policy of Ursuline High School that no motor vehicle will be requested or approved by the school for the transportation of school pupils to and from off-campus activities sponsored or approved by the school, including, but not limited to, athletic contests, dramatic presentations, concerts, practice sessions for any of the above, activities, lectures and expositions, unless the vehicle is operated by a competent adult over the age of twenty-five (25) years, properly licensed, and with liability insurance, public injury and property damage insurance, and medical payments insurance, as detailed below.

As to students who drive themselves to and from the campus for class attendance in an automobile owned or entrusted to the student, it is the policy of the school that the student will not drive herself to any school activity outside the boundaries of the Santa Rosa High School district, but will instead utilize transportation furnished by a competent adult whose services are volunteered to or requested by the school.

It is the policy of the school that no student will furnish motor vehicle transportation to any other student of the school for attendance at school activities away from the campus.

The school expects these policies to be strictly observed, and breach of these policies will be considered a matter for disciplinary action. No exception can be made, unless for a special case, and then only in writing.

The undersigned, as a person who may provide student transportation according to the policies above stated, certifies as follows: that I am an owner of the vehicle or vehicles described below and that I carry on each such vehicle insurance providing no less than three hundred thousand dollars (\$300,000.00) bodily injury coverage, fifty thousand dollars (\$50,000.00) property damage coverage, five thousand dollars (\$5,000.00) medical expense coverage for each person, and fifteen thousand/thirty thousand dollars (\$15,000.00/\$30,000.00) uninsured motorist coverage, which insurance must be available as primary coverage for any claim within its coverage arising during or out of use of the vehicle for transportation of students.

If at any time I am requested to do so, I will have my insurance carrier furnish a certificate of such insurance to the principal of the school, which certificate may require advance notice to the school of any change or modification or of any cancellation.
